

Integration Solutions made Easy

InterWeave Smart Solutions

SMART EMAIL GATEWAY

InterWeave SMART Solutions deliver powerful yet easy-to-use configurable integration Solutions, allowing seamless integration of multiple email gateways to your applications (one to many).

InterWeave Smart eMail Gateway

What is a Smart Gateway?

Smart Gateways are powerful Solutions that facilitate enterprise wide information integration of data via access to heterogeneous data sources residing on heterogeneous platforms at distributed locations. Gateways integrate various data sources and create the right data, in the right place, in the right format, at the right time — for the right application.

Key Attributes - InterWeave Smart eMail Gateway (ISEG)

A key attribute of a gateway is the ability to provide many levels of integration. In addition a gateway provides:

- **Integrate multiple email providers** - The list on the right is only a partial listing of the email providers we work with.
- **Multiple email protocol integration** -POP, IMAP, NNTP, ESMT. MAPI, OWA - we integrate with quite a few.
- **Automated email provider selection** - eMail provider selection is automated in the InterWeave Smart Solutions Portal. Make your selections, configure the detail—and your done.
- **Continuous, real-time integrations** - the InterWeave Smart eMail Gateway is running 24/7—all emails are delivered in real-time.

Our eMail Gateway makes multiple email integration easy, by automating the transfer of data between your multiple email accounts and your standardized email, ecommerce store, financial accounting system, CRM, database, etc. We work with multiple email protocols, allowing a large selection of email providers available for integration. The eMail Gateway synchronizes with interval timings set by you— its completely automated.

To learn more about how the ISEG can support your particular business, please contact us at 203 274 5226, email sales@interweave.biz or go to www.interweave.biz.
