InterWeave Private Cloud Profile

Let us help you design and deploy a virtualized environment customized for your needs and your applications. By teaming with TrappOnline, our team of VMware virtualization engineers manages your environment 24x7x365—including hypervisor and guest OS support with an industry-leading SLA. Find out why our customers trust us to manage their infrastructure and applications. With flexible computing, easy scaling, and availability—combined with the reliability, easy management, and advanced features of enterprise-class VMware® virtualization technology.

Now lets add in your favorite CRM's, eCommerce, Websites, Financial Applications and more in your private cloud. Applications like SugarCRM, Oracle Fusion CRM, MS Dynamics CRM, PPOL, Magento eCommerce, WordPress Websites, QuickBooks, Sage Accounting, MS Dynamics and many more. Connections are now local or one ping away. You now have a dedicated, single-tenet environment with added security and in-domain connections. Need to integrate to your CRM outside of your cloud like Salesforce? No problem, we will setup a private VPN to integrate securely.

Our Solutions

Integration in the Cloud

Our customers require Solutions that are in the Cloud. With your InterWeave Private Cloud, your Servers, IT personnel, firewalls, etc.—all Solutions and customers applications are in the Cloud. TrappOnline can host your Magento, WordPress Website and Financial Applications in a dedicated, supported environment.

eCommerce/CRM/Financial Integration

Quote and Order Monitoring and Management in your CRM today is required; this is why we created InterWeave's iOffice Solution. TrappOnline has extensive experience with QuickBooks and other financial applications. "Trapp Online's knowledge really helps our customers iOffice integration," explained Magown. "Hosting is fine but if you don't understand what you're hosting, that's a problem."

Data Security

InterWeave's customers are provided dedicated servers in a secure data center, an environment that is supported 24 hours per day. Backups are automatic. "With the combination of InterWeave running at TrappOnline and our customers Magento, WordPress Website and QuickBooks running at TrappOnline, we have the best of both worlds." stated Magown. "It's everything our customers need."

Attractive Price Points

Our customers need a Solution that was bundled and supported—in real-time. With your InterWeave Private Cloud and iOffice, integration with Magento eCommerce, ACH/ Payment Gateway to Authorize.net, your CRM and QuickBooks - all in real-time with Virtual Pages updated every 10 seconds for iQuotes, iOrders, iPayments and iInventory—at a very attractive price point.

Customized Solutions

With over 200 configurable options, InterWeave offers the most advanced configurable integration solution on the market for Magento, CRM, Payment Gateways and Financial Applications; all hosted, supported and in the cloud.

Customized Support

InterWeave use's Salesforce's Desk.com Case Management Solution that is integrated tightly with their Salesforce. "With Desk.com, customers can create Cases that can prioritize, respond to or escalate—quickly. "If we can't resolve a case, we host GTM's on every hour of every day." stated Magown.
