Smart Solutions

Integration Solutions made Easy

InterWeave Smart Solutions
SMART DATABASE GATEWAY

InterWeave **SMART** Solutions deliver powerful yet easy-to-use configurable integration Solutions, allowing seamless integration of data from Oracle Sales Cloud to Databases (one to many).

InterWeave **Smart Database** Gateway

What is a Smart Gateway?

Smart Gateways are powerful Solutions that facilitate enterprise wide information integration of data via access to heterogeneous data sources residing on heterogeneous platforms at distributed locations. Gateways integrate various data sources and create the right data, in the right place, in the right format in the right application.

Key Attributes - **Inter**Weave **Smart Database** Gateway (ISDG)

A key attribute of a gateway is the ability to provide many levels of transparency. In addition a gateway provides:

- **Operating system transparency** such that users do not need to know the operating system on which the data resides
- **Geographic transparency** in that endusers only need to know the name of the relational table(s) to be accessed (they do not need to know the physical location of the data)
- **Network transparency,** allowing users to access the data regardless of the network protocol(s), and finally,
- The **Smart Database** Gateway provides data; right place, right format, right application, right time.

Transparent data access can protect a company's investment in data, applications and hardware. Furthermore, it can extend a user's data management power across heterogeneous platforms. Another key attribute of a gateway is to provide a turnkey solution for end-users. Instead of requiring users to do extensive programming and customization in-house, each gateway product enables complete and ready-to-use solutions for which no programming is needed. Once the gateway product is configured to access data from various supported sources, the user can begin integrating and managing data immediately.

The ISDG offers many features and options that can be tailored for specific customers. To learn more about how the ISG can support your particular business, please contact us at 203 274 5226, email sales@interweave.biz or go to www.interweave.biz.

Featured Databases include:

Below are just some of the Databases that have been integrated. Don't see the one below that you need? Just ask.

- Oracle Sales Cloud
- MSSQL
- MySQL
- Oracle
- Progress
- Sybase
- DB2
- VSAM
- Informix
- EnterpriseDB
- PostgreSQL
- Ingres
- QuickBooks QODBC, etc.

Smart Database Pricing

Gateways are priced at $1200 annually, with bundled pricing available when you include other **Smart** Solutions.
