

InterWeave Smart Solutions

INTERWEAVE TOP TEN

Welcome to the InterWeave Top Ten

Top Ten Reasons

1. Trust

Trust makes relationships work.

At **InterWeave**, we believe our success is dependent on the success of our customers. To ensure every solution undertaken lives up to the expectations of our customers, meets their every need and enables their business to flourish is our only charter.

2. In the Cloud

Cloud computing makes it easy.

With **InterWeave**, there is no hardware, software, middleware, databases, or business intelligence tools to buy, install, maintain, and upgrade and you don't need to be a technical resource, analyst or developer. We supply the Smart Solutions, the infrastructure, the support personnel and most important; we supply the application knowledge at a process, data and technical level through years of working with them - in configurable form

3. Configuration, not programming

Configuration. It's a beautiful thing.

InterWeave Smart Solutions deliver a complete configurable solutions to integrate today's popular business applications; you configure, test, run. An alternative to inefficient program and consultant-based approaches, our next generation web-based solutions are powerful yet easy to use, extremely affordable, and deploy in just days.

4. Technology

InterWeave is unique.

InterWeave is integration software and services that help connect and integrate assets across our customers worlds in real-time. **InterWeave** was designed for organizations with highly distributed operations, large partner/customer communities who need to share data/information transactions, and customers and partners who require simple solutions for complex integration issues. Incorporating all business logic, work flow, mapping, etc., in a configurable solution - is simple and unique.

5. Integration

It's our business.

InterWeave's Integration Platform has 15 technology based adapters that are protocol specific; we can connect and integrate with just about anything. What this means for our customers is the ability to integrate "Best in Class" applications and have the right data, at the right time, in the right application available for the right person. We do this everyday.

6. Agility

Built by **InterWeave**. Configured by you.

At **InterWeave**, we understand that your business processes, work flows, need for new applications change rapidly. That's why we designed our solutions as configurable, so workflow can be configured to meet the needs of your individual groups, business units, departments, country or by the business users.

7. Global

One World. Many Solutions.

InterWeave solutions are Cloud-based solutions, available 24/7/365 and designed to meet the needs of today's small business to the largest multi-national organizations. Whether your offices are located across the country or on the other side of the world, **InterWeave** is uniquely qualified to handle your global needs including multiple currencies and coming soon, multiple languages.

8. Security

Data and Privacy.

Adhering to the strictest Data and Privacy standards are core to the integrity of our solutions. With **InterWeave**, security is in the fabric of everything we do. Our MSP, Rackspace Managed Hosting, is Sarbanes/Oxley, SAS 70, Salesforce.com and Symantec certified. **InterWeave** is re-certified every year to earn this accreditation.

9. Usability

InterWeave Power Users.

InterWeave Power Users are individuals or organizations that run our solutions to the max. With **InterWeave's** user-friendly environment, configures provides easy and intuitive changes to solutions, addition of new flows, and the ability to process volume. In addition, we monitor data and connection in real-time with automatic email or IM notification, log viewers, etc. **InterWeave** is completely automated.

10. Experience

Experience Matters.

Let's face it. when it comes to experience, **InterWeave** is no new entrant. **InterWeave** was founded by leaders with a proven track record. Our founder, Bruce Magown's background is Lehman Brothers, Sybase, Netscape and developed **InterWeave**; a web 3.0, cloud-computing solution with the help of a group of remarkably talented people. **InterWeave** is passionate about people, integrity and innovation.
