## SALESFORCE(ASCENT)\_QUICKBOOKS

**Ascent** Solutions deliver powerful yet easy-to-use configurable integration Solutions for Ascent customers, allowing seamless integration of data from Salesforce(Ascent) to Quickbooks.

### Introducing Ascent Solutions

**Ascent** is the first native complete ERP Inventory and Manufacturing Control application in Salesforce.com. With Ascent, users can take advantage of wireless bar code scanners to create back room efficiencies never seen before. Integrate Salesforce (Ascent) with QuickBooks, and now you have dynamic inventory information available that populates QuickBooks in real-time.

### Ascent Solutions are Different:

- Complete, pre-built integration Solutions—between “Best of Breed” applications
- All processes, workflow logic, mapping is ready for you to configure - with a mouse and the web
- **Ascent** Solutions are completely configurable by the customer with pick lists, drop downs or custom fields
- Start-ups, SMB or Enterprise - select exactly the right type of configuration model for you - modify at any time
- Extensive portfolio of **Ascent** Solutions waiting for you to configure
- Complete outsource packages available - no software, no hardware, no developers, no overhead - just sign and go

**Ascent Solutions** deliver a complete integration process for popular business applications. Let's look at a favorite, Salesforce(Ascent). and QuickBooks. With **Ascent** Solutions, you can purchase, configure and run a customized integration process for these applications that integrate standard Salesforce (Ascent) objects (Accounts, Sales Orders, Items) to all standard QuickBooks objects (Customers, Vendors, Sales Orders, Purchase Orders, Items, Inventory); configure, test, run. Or , if you need sophisticated customization – call us - we do this every day.

**You don't need to be a technical resource, analyst or developer.** We supply the **Ascent** Solution, the servers, the support personnel and most important; we supply the application knowledge at a process, data and technical level through years of working with these applications — all in configurable form.
